In addition to Applicant's arguments in response on pages 8 – 12, the following prior art was considered. The PAN system as disclosed in two articles captures lexical information and annotation in software code for the purpose of assisting in programming. On page 98 of "The PAN Language-Based Editing System" reference in Figure 1 the PAN system is shown interfacing to Other Tools such as debuggers. Pages 121 to 123 describe the ability to separate out components of programming statements, including comments. Although, the system assists in debugging code. It assists during editing in an area of art known as syntax directed editing.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
